It is a good idea to buy extra to keep on hand at home. Your child will be responsible for telling you that he/she is out of something. However, they seldom give you much warning. So it is best to buy it ahead of time. Also, there are times when they will need crayons at home to do math homework. It is good to have extra packs of the 8 basic color crayons. They seem to use red and black a lot and run out of that quickly. We look forward to a good year with you and your child. *The Second Grade Teachers*
