AIR JORDAN

By: Andrew (Fluff) Armstrong

The brand of Air Jordans, also known as Js or just Jordans, were made by Nike for Jordan in 1984, although they weren't released for the public to purchase until 1985. Nike is the company that manufactures and sells that brand of Air Jordans. They don't just sell Jordan shoes, they also have clothing that you can buy as well. You can buy shirts, socks, hoodies, sweat pants, also known as joggers, you can even buy hats with the Air Jordan symbol on them. The first pair of Air Jordans that came out were made for Michael Jordan himself, having a white and red finish to them, and only costing 65\$ in 1985. Jordan began to wear them during his games, and that's when they started to become popular. They eventually were banned from the NBA due to the shoes not matching the color of the team uniforms or what other players were wearing at the time for the Chicago Bulls.

Caleb VanDeVelde

The 95th Winchester Invitational Tournament started January 7th. The Winchester Tournament is always a big deal for the

small town of Winchester. It seems to bring a lot of people to the little town. The town doesn't get much traffic other than this tournament.

The 95th Winchester Tournament started off with some upsets with the 10th seed West Central Cougars defeating the 2nd seed the Carrollton Hawks. The Calhoun Warriors had also upset the Pleasant Hill Wolves in a close game. The Greenfield Tigers would also cause another upset late in the day to beat the Brown County Hornets. That upset meant that the Greenfield Tigers and the West Central Cougars would face off in the next round.

As the brackets moved on the Porta Bluejays and the Triopia Trojans would play each other in the semifinals. On the other side of the bracket the West Central Cougars would take on the 3rd seed the North Greene Spartans. The Trojans had upset the number 1 seed Bluejays and this had put them in the championship. The Cougars took on the Spartans and were able to pull off the upset to make it into the championship.

The championship was delayed to the next Monday because of bad weather. The 6th seed Triopia Trojans would take on the 10th seed West Central Cougars on this Monday. The game was very close early on in the game. The Trojans ended up pulling out the win against the Cougars and won the 95th Winchester Tournament with a score of 61-41.

NFL Playoff Picture

By: Jaeden Hettinger

Get ready for some critical scoring. Hope the Georgia Dome scoreboard operator has strong fingers, because he or she is going to get a workout when the NFL's No. 1 scoring offense (33.8 points per game) hosts No. 3 (27.0). In the postseason (the Falcons have only played one game), Atlanta leads with 422

yards and is second with 36 points. Green Bay is second in yards (406) and first in points (38.0) says Sports Illustrated.

No love lost between the Steelers and the Patriots. Let's just say the Steelers aren't exactly high on Bill Belichick's Christmas card list. Firstly, several ex-Steelers (namely WR Hines Ward and current OLB James Harrison) have been vocal about the involvement of the Patriots' Spygate scandal in two AFC Championship Games (2001, 2004) in which the Patriots beat the Steelers. Then, in the 2015 season opener, coach Mike Tomlin said the Steelers could only hear the Patriots' radio broadcast in some crucial moments of the game and, when asked if they have a lot of problems at Gillette Stadium, Tomlin replied, "That's always the case."

Donald Trump

Ethan Hartley

Donald Trump has just a couple more days left until he is the President of the United States. On January 20th at noon the official power is transferred from Barack Obama to Donald Trump.

Inauguration Day is a federal holiday in Washington D.C., and parts of Maryland and Virginia, but only for the people that are scheduled to work that day. D.C. public schools have off that day as do local colleges.

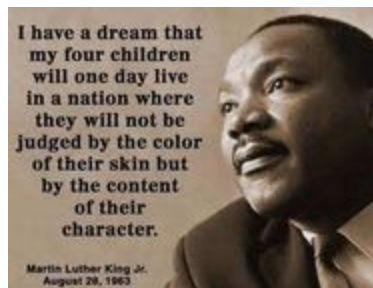

Donald trump has decided that he is going to keep the campaign slogan, "Make America Great Again," because it's got him this far. Trump's inauguration chairman Tom Barrack said "The idea is to have a crosscut of harmony of America and normal Americans that reflects on them, not on the power and prestige of this man."

After Donald Trump and Mike Pence get sworn in, they will be treated to a three course lunch at the Capitol with their families. They will be dining on lobster and shrimp for the first course. The main course will be grilled angus beef with potato gratin. They will be having chocolate souffle and cherry ice cream for dessert.

On Thursday, January 19th, Trump and Pence will attend a wreath laying ceremony at Arlington National Cemetery. Then they will have the “Make America Great Again! Welcome Celebration” at the Lincoln Memorial. The celebration will include performances from 3 Doors Down and Toby Keith and the celebration ends with a firework show. A “National Prayer Service” is set to be held at Washington National Cathedral on Saturday, January 21st.

Getting judged by the way you look

Kelsey Newton

People should be treated fairly at school. We should learn to get to know other students before we judge them it's not right to say things about other students that isn't true. People just like to make us feel like you're worthless. They are trying to make us feel like we're nothing or we're not cut out for school. It doesn't matter what we look like. We should just be nice to other people that we don't know or know anything about because we don't do that to others so why treat us like we are nobodies in school. Some people like to think they're better than anybody else. That is not true nobody is cooler than anybody. We are all treated equally in school. Don't be rude to

others because that's how they are going to get treated in life and it will be payback for those times we have treated people badly. We will see how it feels to be treated the way others did. Other people wouldn't like it if we did it to them so why treat us that way. Why judge us it's not right to say things about others when somethings aren't true about them. If we don't know the person personally then get to know them first before we start judging them by their cover. Be friends with them don't make them feel like they are not good enough to make friends. Be nice to that person. When that person walks in the hallways they feel like they are getting judged by other students. It's not ok to judge other students maybe some have nicer clothes than others so think about this if someone came to school as a homeless and got judged by the way they look. What would you do? would you make fun of them? Would we help them buy clothes because the family is poor? Nobody should feel like anybody cares. If it was me I would help the person out because i don't have a lot of money. I may have nice clothes but that doesn't mean anything. At least i'm grateful for what I have. I may seem like a nobody at least i have a good personality. There are good people out there looking for friends. I think everybody should get along with everybody else in the school. Open our eyes look at the real world. See all the amazing things this world has for us. To see all the things that we can experience in the world that are going on around us .By seeing who is getting treated badly in the world hopefully we see that things need to change. Make sure we treat our parents with respect because that can improve the way we treat or judge people.

University of Illinois

Agricultural, Consumer and Environmental Science

By Allie Davidson

The Agricultural, Consumer, and Environmental Science plays a role in the national and the international research initiatives in biological, physical, social, and economic sciences.

This college was founded in 1867. This college enrolls more 2,700 students in seven departments leading to a Bachelor of Science degree. Agricultural Education offers the Agricultural Leadership and Science Education major. Natural Resources and Environmental Sciences provides students with the opportunity to study resource and wildlife conservation and management, restoration ecology, the impacts of global change, and human dimensions of the environment. The Department of Animal Sciences provides undergraduate students unique opportunities to conduct research projects with faculty. The Department of Crop Sciences major in Crop Sciences offers concentrations of study in plant biotechnology and molecular biology, crop agribusiness, biological sciences, agroecology, plant protection, horticultural food systems, and crops. Agricultural and Biological Engineering/Agricultural Engineering Sciences and Technical Systems Management. Students in the Agricultural and Biological Engineering major earn that degree from the College of Engineering and have the option of a second degree in Agricultural Engineering Sciences. These are some of the departments that you can choose from. You can learn more on U of I website.

Patrick Reed

Chase Burk

Patrick Reed was a member of the 2016 United States golf team for the Ryder Cup. Patrick played a **HUGE** part on the team this year, as he led his team to a major

victory. Patrick Reed was born on August 5, 1990 which makes this young man 26 years old. He was born in San Antonio, TX. The successful man has a wife named Justine Karain and a daughter named Windsor Reed. Patrick Reed attended Augusta State University. Patrick is ranked 9th in the world as a golfer! The 2016 Ryder Cup was a classic with Patrick Reed and

Rory Mcilroy going head to head for the title. They were trading birdies and sinking putts after putts to halve holes or for the win. This matchup was unlike any golf ever seen on TV. Patrick went 6-1-2 in the Ryder Cup. The events and all of the hype shown by Patrick was apart of a new generation of golf, a generation of showing a lot of emotions. This was one of the best passion and talent ever displayed on a golf course in a live event. The Ryder Cup is one of the most major event to any golfer out there, it is like the Super Bowl for football or the World Series for baseball. This year team U.S.A won the Ryder Cup thanks to a lot of

young and great talent from the United States. Last but not least, Patrick Reed is a clutch golfer he went from not being well known but when they needed him he came in and made and did everything the fans and his coaches wanted him to do. Patrick to me is the most clutch golfer there is!
